Potential transition impact of new project signings

For information about the transition impact of EBRD projects signed in 2022, visit ar-ebrd.com

3 The number of projects to which the EBRD made commitments in the year.

4 Annual Bank Investment (ABI) is the volume of commitments made by the Bank during the year. This includes: (i) new commitments (less any amount cancelled or syndicated within the year); (ii) restructured commitments; and (iii) amounts issued under the TFP during the year and outstanding at year end.

5 Annual mobilised investment is the volume of commitments from entities others than the EBRD made available to the client due to the Bank's direct involvement.

6 Private direct mobilisation is financing from a private entity on commercial terms due to the Bank's active involvement.

7 Total project value is the total amount of finance provided to a project, including both EBRD and non-EBRD finance, and is reported in the year in which the project first signs. EBRD financing may be committed over more than one year, with ABI reflecting EBRD finance by year of commitment (see footnote 4). The amount of finance to be provided by non-EBRD parties is reported in the year the project first signs.

8 Transfers of net income are accounted for as a transaction with equity holders recognised in the statement of changes in equity.
