

2020 ANNUAL REVIEW OF PROCUREMENT ACTIVITIES UNDER THE PROCUREMENT POLICIES AND RULES

Prepared by:

The Procurement Policy and Advisory Department

April 2021

Executive summary

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2020, funded and/or administered by the Bank, procured by the Bank's clients and entered into the Contract Review and Award database before the date of generating this report (31 March 2021). A separate section (2.16) covers the procurement activities of the Nuclear Safety Department (NSD).

In 2020, a total of 294 contracts (excluding NSD contracts) were signed by the Bank's clients. The total value of these contracts amounted to € 2.176 billion, for which EBRD's own financing represents € 1.359 billion. In comparison with 2019, this is a decrease in number of signed contracts (4 per cent) and also a decrease in the total contract value (12 per cent). Due to the fact that some client led donor funded consultancy contracts are still administered through a legacy IT system and therefore not entered into the Contract Review and Award system (CRA), 40 such contracts for a total value of € 29.1 million are not included in the overall statistics.

The average contract value was € 7.4 million and the average EBRD financing was €4.6 million per contract. The largest contract placed was the Acquisition of rolling stock (37 (plus 8 optional) trains) for the Warsaw Metro Line II extension in Poland. This Goods contract was signed with a value of € 305 million of which EBRD financed €62 million, with the remaining amount financed by other sources.

As in previous years, the contracts awarded through competitive processes constitutes the majority of contracts representing 96 per cent of the total number of contracts and 99 percent of the total contract value. The interest of companies to participate in EBRD financed tenders remains at a high level. The total number of tenders submitted in 2020 was 1,034. Out of these tenders, 68 per cent were submitted by tenderers from EBRD Countries of Operation (in their own or other Countries of Operation) resulting in awards of 237 contracts (82 per cent of all contracts) with a total value of € 1.7 billion (76 per cent of the total contract value).

Companies from the following five countries were most successful in terms of highest total contract value: Turkey (€ 324 million), Czech Republic (€ 316 million), Romania (€ 238 million), China (€ 201 million) and Croatia (€ 168 million). In total, these contracts represent € 1.247 billion or 57 per cent of the total contracted value.

Cross-border participation in tendering for EBRD financed contracts in Countries of Operation is at a high level (31 per cent), where 12 per cent of all contracts were won by companies from Countries of Operation competing in other Countries of Operation.

PPAD handled 14 complaints, which is a slight increase in numbers compared to 2019 (11).

As of 31 December 2020, based on the Bank's commitments at the time, the contract pipeline shows that in the forthcoming four years, the Bank's public sector clients are expected to sign in excess of 970 contracts for an amount exceeding € 14.5 billion (EBRD funding €9 billion).

It should be appreciated that with the relatively small number of contracts spread across different sectors and Countries of Operation that are covered on a yearly basis in this report, the data set is not sufficiently representative to be used for comprehensive analysis of trends. Contracting activities will inevitably reflect the investment and volume that the Bank finances rather than more general trends in the market. Moreover, the contracting activities in 2020 were affected by the global pandemic. As a consequence of the pandemic, governments and international organisations have implemented severe measures to control the spread of the virus, with serious implications on the clients, contractors, suppliers and consultants and their staff and business partners. These implications had an impact on procurement exercises and implementation of signed contracts under Bank financed projects.

In April 2020, PPAD published a public guidance note for the client and market players on how to handle procurement and implementation risks and challenges related to the crisis. A number of internal Bank wide instructions and guidance notes followed, all of this to minimise the impact of the COVID-19 situation on the Bank's public portfolio and most importantly people and economics of the Countries of Operation.

Section 2 of this report is based on a revised automated format as explained in Section 1.

Annual Review 2020

1. Introduction

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2020, funded and/or administered by the Bank and procured by the Bank's clients and entered in the CRA before the date of generating this report (31 March 2021). A separate section (2.11) covers the procurement activities of the Nuclear Safety Department (NSD). This report covers goods, works and consultancy contracts procured and contracted by the Bank's clients, regardless of source of funds.

The data used in the report

The reporting format uses concurrent data. This means that the historical information (year to year data) from each annual report will in this report may show a larger number of contracts than reported in the previous years as historical contracts will continue to be entered into the system when received the Bank from the clients. Compared with the 2020 Annual Procurement Review, there are 37 contracts (26 contracts in 2019; nine contracts in 2018 and two contracts in 2017) worth a combined total of €124 million, which have been added to this report. The main reason why contracts signed in one particular year are entered into the system after the report is produced, is that contracts are often only submitted to the Bank when the first disbursement for the respective contract is requested or as part of other reporting requirements to the Bank, especially when alternative procurement procedures are used.

Annexes 1 to 10 of the report contain the statistical data for the public sector contracts signed during 2020. The analysis of these data, as well as the main procurement activities of PPAD (Section 4), can be found in the main body of this report. Sections 1-3 of this report as well as the annexes will be published on the Bank's website.

A list of the contracts that have been entered into the CRA system since the previous report can be found in Annex 11.

This report includes a separate annex which covers donor funded consultancy services selected and contracted by the Bank's clients. Due to legacy IT systems these contracts cannot be entered into the CRA and are therefore reported separately from the overall statistics (Annex 12).

2. Analysis of public sector procurement data

2.1 Volume and number of contracts

2.1.1 Overview 2020

Number of contracts signed by the Bank's clients (excluding NSD)	294
The total value of these contracts amounted to	€ 2.176 billion
Total number of signed contracts compared with last year	4% decrease
Total value of signed contracts compared with last year	12% decrease

2.1.2 Average values of all contracts

	2019	2020	Year on year change
Contract value (€ million)	8.0	7.4	8% decrease
Average EBRD financing per contract (€ million)	5.3	4.6	13% decrease

2.1.3 Large value contracts

	2019	2020
Number of contracts with a value above € 10 million but less than € 20 million	37	35
Number of contracts with a value above € 20 million	23	18

The largest contract by value was for the **Acquisition of rolling stock (37 (plus 8 optional) trains) for the Warsaw Metro Line II extension in Poland**, for a total contract value of €305 million of which €62 million was funded by the EBRD.

2.2 Analysis by country of operation

Number of countries of operation with public sector contracting activities: **28**

The five countries with the highest number of contracts signed:

Rank	Country of Operation	Number of contracts	Percentage of the total contract number
1	Tajikistan	37	13
2	Romania	32	11
3	Kyrgyz Republic	25	9
4	Bosnia and Herzegovina	22	7
5	Ukraine	21	7
Total		137	47

The five countries with the highest cumulative value of contracts:

Rank	Country of Operation	Value of contracts (€ million)	Percentage of the total contract value
1	Poland	305	14
2	Bosnia and Herzegovina	257	12
3	Romania	242	11
4	Ukraine	186	9
5	Croatia	160	7
Total		1,150	53

2.3 Analysis by type of contract

Table 2.3.1 gives the distribution of contracts by size and type in 2020. The 145 works contracts represented the largest total value by contract type (64 per cent of the overall contract value) as well as the largest proportion in value financed by EBRD and EBRD administered grants € 873 million out of € 1.382 billion.

Contract Size (€ million)	Works	Supply & Installation	Goods	Consultant Services	Total
0~0.3	19	3	35	24	81
0.3~7.5	78	5	25	36	144
>7.5	48	6	11	3	68
Total	147	14	71	63	294
Total Value (€)	1,381,802,589	92,506,204	609,713,584	90,863,578	2,175,922,916
Average value (€)	9,529,673	6,607,586	8,875,515	1,442,279	7,401,098
Fund Portion* (€)	872,788,303	77,461,096	350,506,876	58,038,901	1,358,795,175

*Loan and EBRD administered Grants

Table 2.3.2 illustrates the most successful companies by their country for each contract type in 2020

Contract Type	Tenderer Country	Share of Overall Value for category
Consultant Services	Belgium	14.2%
Goods	Czech Republic	53.4%
Works	Turkey	15.1%
Supply & Installation	Slovenia	34.1%

2.4 Distribution of contracts by award method in 2020

Table 2.4.1 illustrates that the majority (194) of the public sector contracts were awarded through open tender. This represents 66 per cent of the total number of contracts awarded and 66 per cent of the total contract value. As open tendering only applies to goods, works and supply and installation contracts procured in accordance with the PPR the public sector contracts awarded through open tendering represent 95 per cent of the number of these contracts and 99 per cent of the total contract value.

Contract Size (€M)	Open	Direct Selection	Competitive	Alternative ¹	Total
0~0.3	53	7	8	12	81
0.3~7.5	98	2	29	16	141
>7.5	43	1	2	22	68
Total	194	10	39	50	294
Total Value (€)	1,431,429,995	13,869,949	68,480,704	662,060,734	2,175,922,916
Average Value (€)	7,378,505	1,386,995	1,775,915	13,241,215	7,422,819
Fund Portion (€) ¹	1,123,713,309	13,029,270	49,538,666	172,432,398	1,358,795,176

¹

Alternative procurement is the categorisation given to those contracts for which the Board has granted an exception under paragraph 2.4, 3.10 and 3.11 of the PPR from the use of the Bank's procurement procedures. Please refer to the Procurement Policies and Rules edition October 2014 and November 2017, for an explanation of different tender methods.

2.5 Level of participation

2.5.1 Overview

A total of 1,034 tenders from 58 countries were received during 2020, which is a similar number as in 2019 (1,033). On average, 3.5 tenders were submitted when open tendering procedures were applied (compared with an average of 3.0 tenders in 2019).

Companies from the following five countries were most successful in terms of highest total contract value, winning in total € 1.247 billion or 57 per cent of the overall contract value:

Tenderer Country	Awarded Value
Turkey	€ 324 million
Czech Republic	€ 316 million
Romania	€ 238 million
China	€ 201 million
Croatia	€ 168 million

Companies from the following five countries were most successful in terms of number of awarded contracts, winning in total 119 contracts (41 per cent of the total number of contracts) worth €400 million, which represented 18 per cent of the total contract value:

Rank	Tenderer Country	Number of Contracts
1	Romania	30
2	Tajikistan	30
3	Bosnia and Herzegovina	20
4	Bulgaria	20
5	Kyrgyz Republic	19

Table 2.5.2 Distribution of tenderers by country of origin (2020)

The column “Rate of Success” seen in **Table 2.5.2** provides an indication of the ratio of the award of contracts and the number of tenders submitted by entities from each country.

Tenderer Country	Signed Contract Value (EUR)	% of Total Value Won	Number of Contracts Won	% of Total Contracts Won	Number of Unsuccessful Tenders	Total Number of Tenders	% Rate of Success	% of Total Tenders Submitted
Albania	12,513,890	0.58%	1	0.34%	8	9	11.11%	0.87%
Armenia	5,704,894	0.26%	3	1.02%	5	8	37.50%	0.78%
Austria	45,222,643	2.08%	5	1.71%	19	24	20.83%	2.33%

2.6 Analysis by origin of tenderer

The following analysis is based on open tendered contracts only:

Chart 2.6.1a: All submitted tenders shows that out of the 1,034 tenders that were submitted, 68 per cent were submitted by tenders from Countries of Operation.

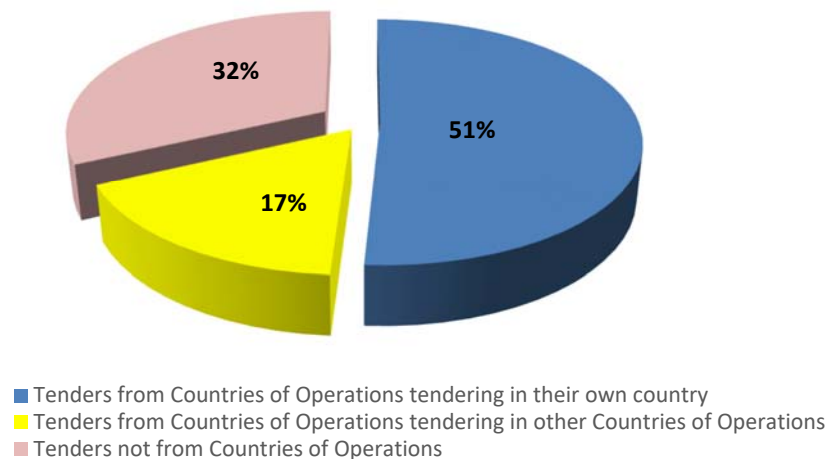

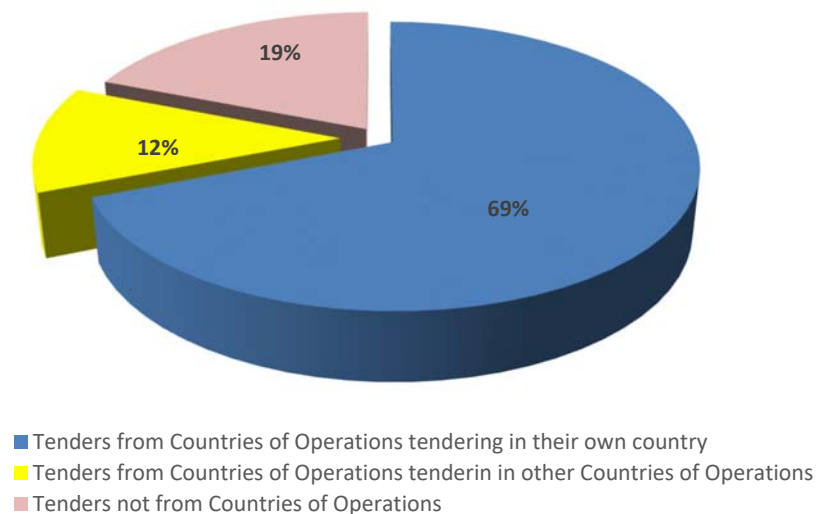

Chart 2.6.1b: All successful tenderers (number of contracts)

The chart shows that out of the 294 contracts awarded, 69 per cent were won by companies from Countries of Operation tendering in their own country and 12 per cent were won by companies from Countries of Operation tendering in other Countries of Operation. In total 81% were won by companies from Countries of Operation.

2.7 Success of entities from Countries of Operation

Table 2.7.1 illustrates the success of companies from Countries of Operation

	Number of Contracts	Percentage of the total number	Value of Contracts (million)	Percentage of the total Value
Contracts won by entities from the Countries of Operation	236	82%	€ 1,700	76%
Contracts won by entities from the Countries of Operation in their own country	202	69%	€ 900	40%

	Number of Contracts	Percentage of the total number	Value of Contracts (million)	Percentage of the total Value
Contracts won by the entities from the Countries of Operation in a country which is not their country of origin	34	12%	€ 800	37%
Contracts won by the entities from the Countries of Operation in their own countries only (list of countries below)	134	46%	€ 452	21%

In 2020, companies from the following 13 countries of the Bank Countries of Operation won contracts only in their own country.

These countries were: Albania; Belarus; Georgia; Jordan; Kyrgyz Republic; Moldova; Mongolia; Montenegro; Morocco; North Macedonia; Romania; Tajikistan; Uzbekistan.

2.8 Co-Financing

In 2020, the total value of co-financed contracts awarded was € 1.366 billion of which the EBRD financed € 549 million. The balance of € 817 million were provided by other sources, such as other financial institutions (IFIs, EU Agencies, bilateral donors etc.) or by the borrowers themselves. In comparison with 2019, a substantial increase (€ 136 million) of the total value provided by other sources can be noted. Altogether 149 contracts (51 percent of total number) were co-financed, which is 24 percent increase compared to 2019.

The charts below present the distribution of the co-financed contracts by Banking teams, in EU member countries and non-EU member countries by number and by value. Co-financed contracts in EU member countries represented 36 percent of the total number of co-financed contracts and 55 per cent of the total value of all co-financed contracts. 92 out of 149 co-financed contracts were signed in non-EU member countries.

Chart 2.8.1a illustrates that the team with the highest co-financed contractual activity in terms of the number of contracts was the Infrastructure Europe team with 79 contracts.

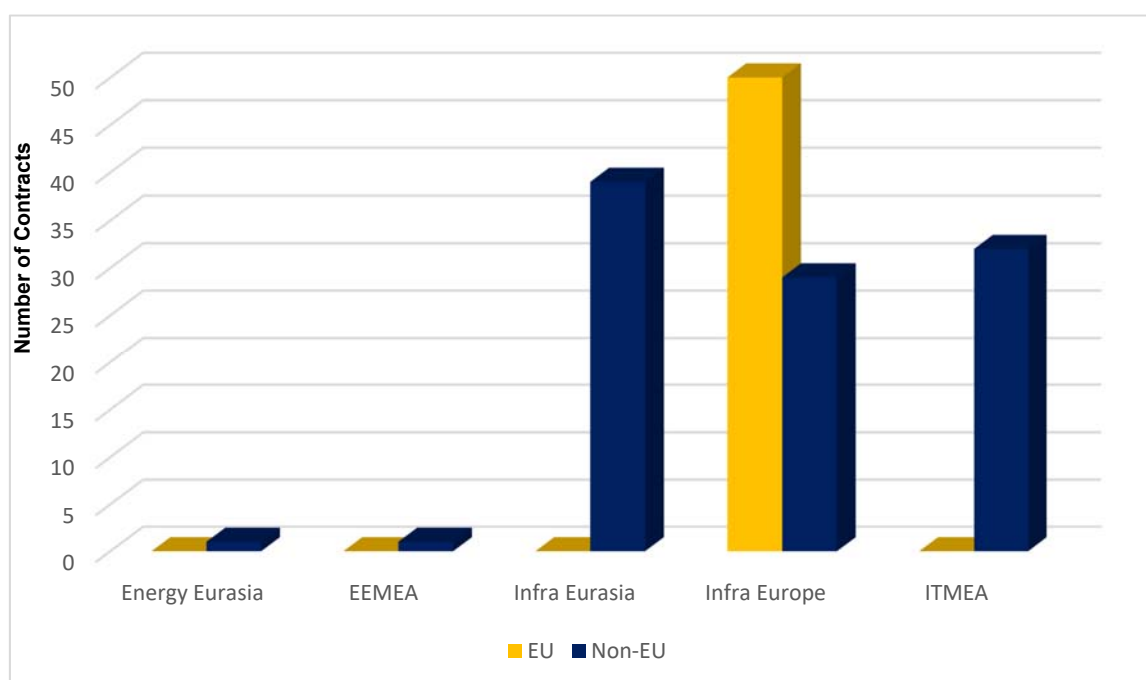

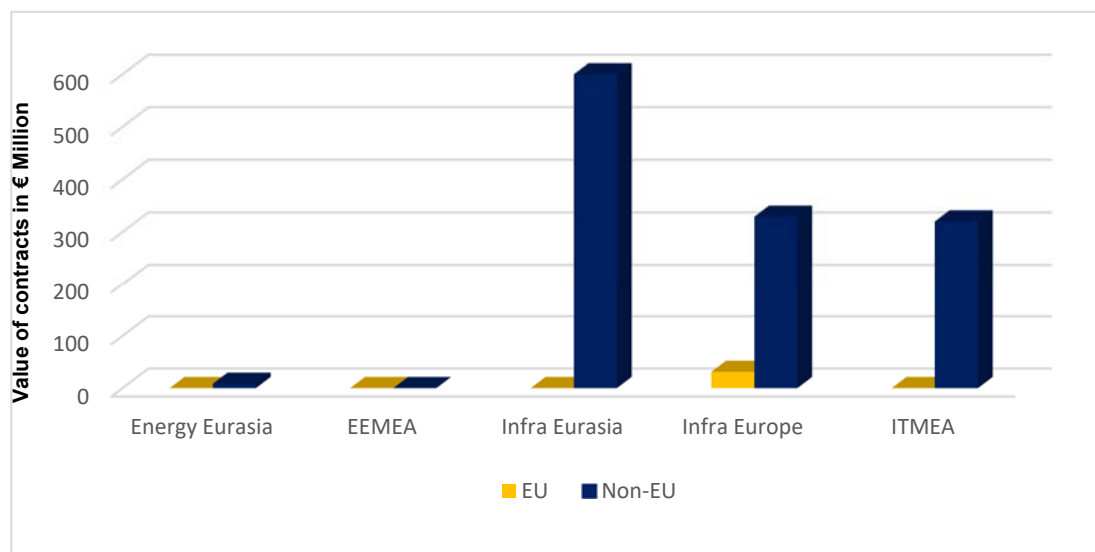

Chart 2.8.2b illustrates that the team with the highest overall co-financed contract value was the Infrastructure Europe team with €856 million, representing 63 per cent of the total co-financed contract value.

2.9 Public sector procurement with sub-sovereign clients

		Percentage of total contracts	Compared to previous year
Number of contracts	173	59	7% decrease
Value of contracts (€ million)	1,259	58	6% decrease

2.10 Alternative procurement

Alternative procurement is the classification given to those contracts which are co-financed with other International Financial Institutions and for which the Board has granted an exception under paragraph 2.4 of the PPR from the use of the Bank's procurement procedures. In such cases, these contracts are procured under rules and procedures applicable to the co-financing institution as well as subject to acceptable alternative monitoring procedures, as set out in the request for exception approved by the Board. In 2020, alternative procedures were applied in the following four countries: Bulgaria, Croatia, Poland, Romania.

Number of contracts	50
Total value	€ 662,060,734
EBRD funded portion	€ 172,432,398
Average EBRD financing	26%
Largest contract	€ 305,318,993

2.11 Nuclear Safety Department

The EBRD manages seven nuclear safety Funds with over €4 billion in pledged contributions. Each Fund is governed by specific provisions as set out in the Rules of the Fund approved by the respective Assembly of Contributors and by the EBRD Board of Directors. The Funds are managed by the Nuclear Safety Department (NSD) on behalf of the contributing countries. Procurement under the Funds must follow the EBRD's PPR for public sector projects.

	2020	Compared to the previous year
Number of contracts signed	13	decrease 30%
Value of contracts signed (€ million)	35.5	decrease 37%

Table 2.11.1 illustrates the distribution of NSD administered contracts by size and type.

Contract Size (€ million)	Works	Supply & Installation	Goods	Consultant Services	Total
0.3~7.5	2	3	7	0	12
>7.5	1	0	0	0	1
Total	3	3	7	0	13
Total Value (€)	15,204,738	8,060,438	11,576,542	0	35,536,468
Average Value (€)	2,953,627	5,861,403	216,343	0	2,681,311

The largest contract by value was for **Waste Management Projects for the Kozloduy NPP Unit 1 Decommissioning Program**

2.12 Annexes covering 2020

Country and sector tendering analysis

Annex 1 provides a breakdown by Country of Operations of all contracts signed during 2020 (excluding NSD funded contracts) showing the winning tenderer and participating tenderers.

Annex 2 provides the total value of contracts signed in 2020, distributed by type and by country of origin of the winning companies.

Annex 3 presents the level of interest generated by business sector in the respective countries of operation for 2020

Annex 4 presents the distribution of tenders submitted by country of origin of the tenderers and by country of operations for 2020

Annex 5 presents the distribution of submitted tenders by country of origin of the tenderers and by business sector for 2020

Annex 6 awards by country of origin of the tenderers (Value by Procurement Method).

Annex 10 Contracts placed under Nuclear Safety managed funds during 2020

2.13 Analysis by sector 2016 – 2020

Chart 2.13.1a illustrates the number of public sector contracts signed between 2016 and 2020

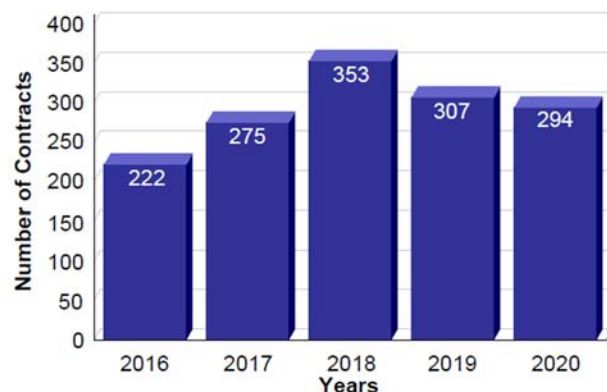

Chart 2.13.1b demonstrates the overall contract value as well as the portion financed by the EBRD between 2016 and 2020. Over the past five years, a total of 1,451 contracts have been signed with a total value of € 11.717 billion of which the EBRD financed € 7.328 billion

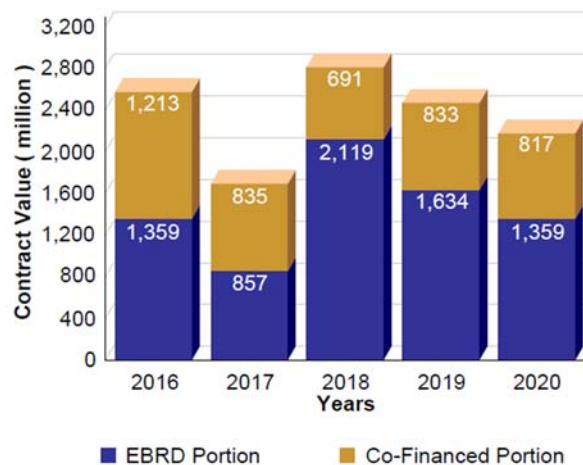

Chart 2.13.1c illustrates the overall number of public sector contracts signed between 2016 and 2020 by business sector. With a total number of 943 contracts, with the MEI sector having the highest contracting activity.

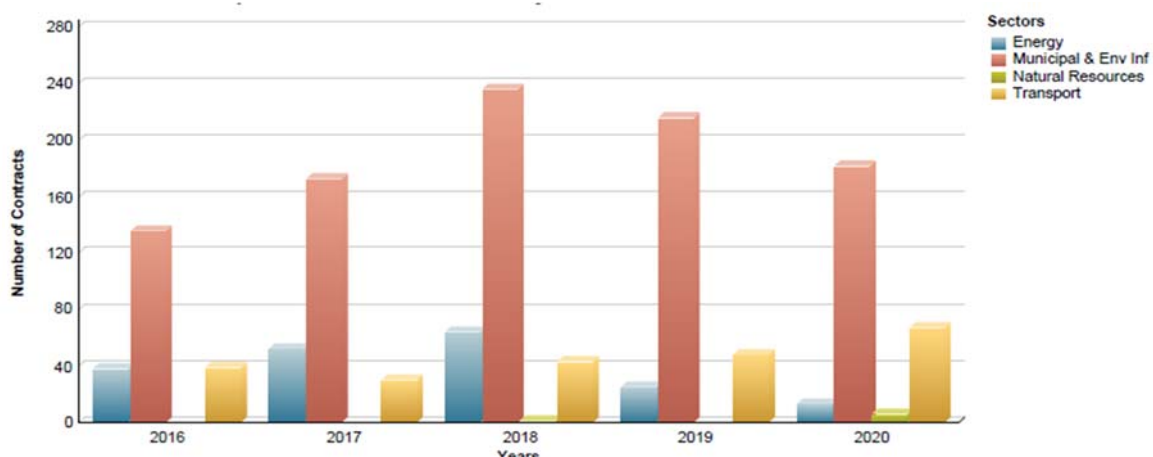

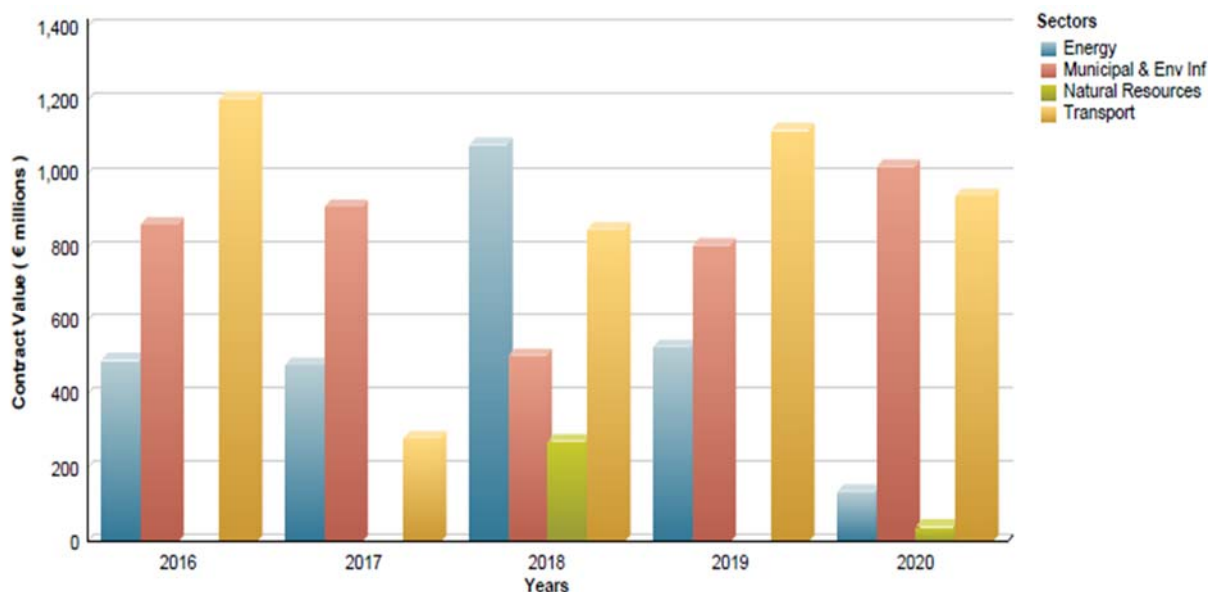

Chart 2.13.1d illustrates the overall contract value of public sector contracts signed between 2016 and 2020 by business sector. The Transport sector recorded the highest contracting activity with € 4.403 billion over the past five years.

2.14 Cumulative 2016-2020 data overview

The below information shows the countries with the highest total value of contracting over the past five years in descending order.

Country of Operations	Awarded Value (€)
Ukraine	1,646 million
Turkey	1,199 million
Kazakhstan	1,090 million
Morocco	923 million
Romania	826 million
Overall - Total	5,683 million

The contracts in these five countries amounted to € 5.683 billion, which represented 49 per cent of the overall total contract value of the past five years (€ 11.716 billion).

Tenderers from Turkey have been the most successful over the last five years as they have won a total of € 2.567 billion or 22 per cent of the overall contract value. During the past five years the countries with the highest total amount of contract value were, in descending order:

Rank	Tenderer Country	Total Contract Value Awarded (€)
1	Turkey	2,567 million
2	China	1,118 million
3	Morocco	906 million
4	Ukraine	709 million
5	Romania	562 million

The contracts won by companies from these five countries amount to € 5.862 billion which represented 50 per cent of the overall total contract value for the past five years. According to the country of origin of the companies, out of the 1,450 contracts administered by EBRD the highest numbers of contracts were awarded to companies from:

Rank	Tenderer Country	Number of Contracts
1	Kazakhstan	162
2	Tajikistan	153
3	Morocco	119
4	Romania	97
5	Kyrgyz Republic	85

The number of contracts won by companies from these five countries is 616, which represented 42 per cent of the overall total contract count for the past five years.

In the period 2016 to 2020 no public sector contracts were reported in: Estonia; Greece; Hungary; Latvia; Lebanon; Lithuania; Slovak Republic; Slovenia; Turkmenistan; West Bank and Gaza

2.15 Annexes covering 2016 - 2020

Annex 7 provides a distribution by country of origin of the successful tenderers and the value of contracts signed for the period 2016 - 2020

Annex 8 provides the same breakdown but on the basis of the total number of public sector contracts won and signed in the period 2016 - 2020

Annex 9 provides public sector contract awards in the Countries of Operation by value

2.16 Public Procurement Opportunities

Table 2.16.1 illustrates the data regarding the public procurement opportunities posted on the Bank's Internet site and the EBRD procurement portal (ECEPP). It should be noted that the procurement notices were also sent to the United Nations Development Business for posting in the MDB business opportunity section as well as to the EU for publishing in the Official Journal of the European Union.

Year	General Procurement Notices	Invitations for Expressions of Interest	Invitations to Prequalify	Invitations for Tenders	Total
2016	96	29	21	247	316
2017	122	23	11	242	398
2018	103	44	19	199	398
2019	127	66	23	193	409
2020	137	48	12	134	331

In 2020, the Bank published a total of 331 procurement notices. Out of 137 general procurement notices published, 80 were for new projects.

3. Compliance and integrity

3.1 Procurement Complaints

3.1.1. Procurement complaint review process

The Bank's role in a procurement complaints review process is to determine if the client has followed the agreed procedures, or not. Should the Bank consider that the Bank's client has, in a material way, not followed the agreed procedures it may decide not to finance the subject contract, and may reduce the amount of financing provided by the Bank by the corresponding amount in accordance with Section III, Article 2.12 of the PPR. It should be noted that a determination by the Bank to uphold a procurement complaint might affect the availability of Bank funding for the contract, but may not alter the outcome of the procurement process.

In 2020, all procurement complaints that were received prior to 1 October 2020, were reviewed in accordance with the provisions of the Procurement Complaints Review Directive, which had come into effect on 1 June 2019. The essential features of this Directive can be summarised as follows:

A procurement complaint will only be considered if filed by or on behalf of a participant in a procurement process after the deadline for submission of:

- (a) In respect of Goods and Works tenders, a prequalification application, a first stage technical proposal or a final tender;
- (b) In respect of Consultancy services, an expression of interest, a technical proposal or a final proposal.

Furthermore, procurement complaints will only be considered by the Bank if

- (a) the complaining participant has requested and received a debriefing by the client;
- (b) the complaint is set forth in the format of the EBRD Procurement Complaints Form, duly completed, accompanied by relevant documents, and submitted via the Bank's procurement complaints portal; and
- (c) the complaining participant has provided reference(s) to the paragraph(s) or section(s) of the tender documents that are alleged to have been violated and has described the substantive nature of the issues raised.

Complaints that are received by the Bank in any other form or through any other communication channel will not be considered by the Bank and will be forwarded to the client for its review and response.

Any issues related to the procurement process applied or the respective procurement documents issued that are submitted to the Bank before the deadline for submission of documents are considered as a "Request for Bank Procurement Review" and not as procurement complaints.

On 1 October 2020, a new Procurement Complaints Review Directive came into effect. The most material changes that were introduced included the following:

A procurement complaint will only be considered by the Bank if filed by or on behalf of a participant in a procurement process after the deadline for:

- (a) In respect of goods, works, commodities and other non-consultancy services tenders, the opening of the final tender which includes the financial proposal;
- (b) In respect of consultancy services, the opening of the financial proposal.

Issues raised by participants in a procurement process prior to the above deadlines will be dealt with by the Bank in accordance with the provisions of the Guidance Note on "Request for Bank Procurement Review".

3.1.2. Procurement Complaints during 2016-2020

Table 3.1.2 illustrates the number of complaints/concerns² 2016-2020 by contract type and procurement method

Contract type	2016	2017	2018	2019	2020
Works	8	8	9	6	6
Goods	6	9	3	2	6
Supply and Installation ³	10	7	2	1	N/A
Commodities	1	0	0	0	0
Consultancy	2	2	1	2	2
Total	30	26	16	11	14

3.1.3. Procurement Complaints during 2020

During the course of 2020, PPAD handled 14 procurement complaints for Bank financed or administered contracts, as compared with the 11 procurement complaints in 2019. For reference, the following number of contracts was awarded under the PPR, under which participants in the respective procurement processes are eligible to submit procurement complaints to the respective clients and the Bank. There were 294 contracts signed under public sector projects and 13 under the nuclear safety funds, 1,841 consultancy contracts, funded from Bank administered TC funds.

3.1.4 Summary of all complaints

The complaints raised by unsuccessful entities in 2020 varied in nature. The following main issues were raised:

- Challenging the Client's decision to disqualify a tenderer on technical grounds;
- Challenging the qualification of the lowest priced tenderer;
- Allegation that the winning tenderer did not fulfil the requirements of the tender documents;
- Client's mishandling of the tender opening.

In terms of the duration of the review of complaints, seven cases could be finalised within a period of less than two months, four cases in between three and seven months while three complaints could only be closed up to nine and thirteen months respectively after receipt by the Bank.

The following section provides a summary of the 14 complaints that were closed in 2020. The review of two further complaints was still ongoing as at 31 December 2020. The information provided includes the nature, the business sector and the outcome of the complaint process for each of these complaints. 11 of the 14 complaints were not upheld and two complaints were upheld by the Bank. The review of one of the complaints was closed by the Bank, as the client had cancelled the procurement exercise subsequent to the receipt of the complaint.

Complaints closed by the Bank in 2020⁴

1. Project: Kazakhstan: Shalkiya Zinc: Pre-Privatization Loan

Country of Originator: Kazakhstan
 Contract Amount: €11.3 million
 Timeline: < 13 months

Nature of Complaint:

The complaint concerned the alleged non-compliance of the first-ranked consortium in this open competitive consultant selection process with the requirements under Kazakh law regarding the accreditation of project supervision professionals.

² From 2019, procurement complaints only, due to re-classification in the Procurement Complaints Review Directive of 1 June 2019

³ From 2020, contracts for "Supply and Installation" are included in the contract type category of "Works or "Goods", as appropriate.

⁴ Complaints closed during 2020, presented in chronological order as received by the Bank

Outcome of the Complaint Review Process:

Due to the cancellation of the consultant selection process by the Client, no further action or review was required by the Bank regarding this complaint and the case was closed.

2. Project: Bosnia and Herzegovina: GrCF – Sarajevo Water

Country of Originator: Austria
 Contract Amount: €4.6 million
 Timeline: < 13 months

Nature of Complaint:

The complaint related to a single stage open tender for the "Rehabilitation of pumping stations (including chlorination units) and installation of metering and control equipment (individual and bulk meters, telemetry)" of three pumping stations (Bacevo, Center, Alipasin Most) for the water supply network of Sarajevo. The Complainant received a debriefing letter from the Client, explaining that although the Complainant's tender was substantially response, it was not the lowest evaluated tender. In its complaint to the Bank, the Complainant alleged that the winning tenderer

- did not fulfil some of the qualification criteria;
- had not offered goods in accordance with the relevant specifications of the tender documents; and
- had submitted an abnormally low tender.

Outcome of the Complaint Review Process:

It was determined by the Bank that the winning tenderer had demonstrated its compliance with the Specific Experience requirements of the tender documents as well as the compliance with the requirements for the goods to be supplied.. It was further determined that the price of the winning tender was not abnormally low. Consequently, the Bank decided not to uphold the complaint.

3. Project: Bulgaria: Kozloduy International Decommissioning Support Fund

Country of Originator: France
 Contract Amount: €15.8 million
 Timeline: < 9 months

Nature of Complaint:

This two-stage tendering process concerned the rehabilitation of the Chaira Pumped-Storage Hydro Power Plan (PSHPP). The complaint was submitted by a participant of the procurement process and concerned their disqualification after submission of the second-stage tender on the grounds of material deviations (3 items quoted). The complainant alleged that the deviations cited by the client did not constitute material deviations, because the 3 items allegedly represented only small amounts, and would, moreover, provide technical and economic benefits to the client.

Outcome of the Complaint Review Process:

The Bank decided not to uphold the complaint on the basis that the tender presented by the complainant did not meet the requirements of the tender documents and, after clarification, the complainant proposed a solution that only partially met the requirements. The Bank's analysis of the case confirmed that the client's decision to declare the complainant's tender as materially non-compliant with the tender requirements was justified.

4. Project: Ukraine: Pan-European Corridors

Country of Originator: Ukraine
 Contract Amount: €65 million
 Timeline: < 6 months

Nature of Complaint:

The complaint related to the contract "Repair Works on the M-05 Kyiv - Lots 1 - 3". The complainant alleged that the Bank's client had failed to treat an arithmetical error in one of its competitor's tender in accordance with the relevant provisions contained in the tender document, which had unfairly resulted in the Complainant's tender being unsuccessful.

Outcome of the Complaint Review Process:

The Bank determined to uphold the complaint on the grounds that the client's tender evaluation had been flawed with respect to the correction of arithmetical errors.

5. Project: Ukraine: UPTF - Lviv Automated Fare Collection

Country of Originator: Estonia
Contract Amount: €10 million
Timeline: < 1 month

Nature of Complaint:

The complaint concerned the selection process for the development, supply, implementation and maintenance of an automated fare collection system for Lviv City. Two tenderers submitted tenders. During the tender evaluation, the Bank's client had concluded that the tender securities of both tenderers did not comply with the requirements of the tender dossier, but waived the deviation, and requested revised / amended tender securities. The complainant alleged that (a) the tender security presented by the other tenderer was non-compliant, but (b) its own tender security was compliant. Therefore, the tender submitted by the other tenderer should have been declared non-responsive, and the complainant should have been declared the winning tenderer.

Outcome of the Complaint Review Process:

The Bank determined that the client did not err when (a) they declared the tender securities of both tenderers invalid on account of deviations; (b) they decided that the deviations could be remedied without breaching the principles of equal treatment by requesting both tenderers to submit revised / amended tender securities, and (c) the client declared both tenderers' tender securities, after revision / amendment, to be valid. The Bank therefore decided not to uphold the complaint.

6. Project: Bosnia and Herzegovina: Port of Brcko

Country of Originator: Slovak Republic
Contract Amount: €0.55 million
Timeline: < 2 months

Nature of Complaint:

The procurement complaint related to a single stage open competitive selection of the PIU Support Consultant for the Port of Brcko project. The complainant claimed that the principles of transparency, accountability, competition, quality, economy and efficiency had been breached or compromised in the consultant selection process. Consequently, the complainant asserted that the selection procedure had not been carried out materially in accordance with EBRD's PPR. More specifically, the complainant listed the following reasons for submitting the complaint:

- clear link between the first ranked consortium profile and the TOR requirements that were superfluous to the project.
- pattern in technical evaluation scores across all the consortia and criteria.
- disregarding the Complainant's written debriefing questions related to the TOR as the basis for evaluating the complainant's proposal.

Outcome of the Complaint Review Process:

In its procurement complaint, the complainant's main concerns related to the design of the consultancy assignment in general and the TOR in particular. According to section IV, article 3.1 of the Procurement Complaints Review Directive, the Complainant would have needed to raise its concerns about the procurement documents, including the TOR, prior to the deadline of submission of proposals. On formal grounds, the vast majority of the complainant's concerns would consequently have had to be considered ineligible for a procurement complaints review. However,

it was considered useful to analyse all the allegations. It was found that some of the main concerns of the complainant had already been addressed during the pre-submission deadline clarification process, i.e. the dropping of the minimum time input requirement and broadening the qualification requirements for the key experts. There was also no evidence that the design of the assignment and the evaluation criteria led to a limitation in competition, which was supported by the fact that five international consultancy companies and their local joint venture partners had submitted proposals, four of which had been considered to be sufficiently compliant with the requirements. The only issue that could be classified as an issue for a procurement complaint in accordance with the Procurement Complaints Review Directive was the allegation that there had been a pattern in the technical evaluation scores across all the consortia and criteria. However, no evidence was found that the members of the evaluation committee had not applied sound professional judgement when evaluating and scoring the technical proposals submitted by the participants in the consultant selection process. As none of the allegations presented by the complainant were substantiated, the Bank decided not to uphold the complaint.

7. Project: Montenegro: Main Roads Reconstruction Project

Country of Originator: Albania
Contract Amount: €24 million
Timeline: < 7 months

Nature of Complaint:

The Complainant alleged that the Bank's client had unfairly deemed the complainant's tender for Lot 2, the reconstruction of M-18 road section Podgorica-Danilovgrad, to be non-responsive during the tender evaluation process.

Outcome of the Complaint Review Process:

The Bank decided not to uphold the complaint on the following grounds:
 The Client's Tender Evaluation Committee (TEC)'s determination to reject the complainant's preliminary programme was substantiated by the lack of evidence required to prove the capacity of the latter to ensure a durable and timely supply of asphalt mixture and concrete necessary to execute vital parts of the works required for the contract. Furthermore, failure to exhibit all the components constituting a feasible and complete programme indicated that the complainant had not developed a system to ensure the proper execution of the works required while mitigating potential risks throughout project implementation. The Bank determined that the TEC's determination on the failure of the complainant to demonstrate a feasible programme for bridge construction and reconstruction with adequate resourcing and realistic completion periods had been correct and was aligned with the tender requirements. It was also established that the complainant was non-compliant with the JV criteria for average annual construction revenue.

8. Project: North Macedonia: MEPSO: North Macedonia-Albania Transmission Phase I

Country of Originator: Greece
Contract Amount: €14 million
Timeline: < 6 months

Nature of Complaint:

The procurement complaint related to a tender for the design, procurement, installation, testing and commissioning of the 400/110 kV Ohrid Substation and the extension of the 400 kV Bitola 2 Substation for the North Macedonia - Albania Transmission Phase I project. The complainant claimed that the principles of fair competition, equal treatment and transparency had been breached in the tender evaluation process. More specifically, the complainant argued that the winning tenderer did not fulfil the requirements concerning its general and specific experience as required in the tender documents. Furthermore, the complainant asserted that their right for a comprehensive debriefing had been deprived by the Client.

Outcome of the Complaint Review Process:

The Bank decided not to uphold the complaint on the following grounds:

The client's refusal to disclose commercially sensitive information related to the winning tenderer's experience declared in its tender is the correct practice. As a debriefing was provided by the client, the complainant's claim that their right for debriefing had been violated by the client's refusal to disclose documents included in the winning tenderer's tender is incompatible with the Bank's Guidance Note on Procurement Debriefing and the PPR. It was further determined that the reference contracts provided in the winning tenderer's tender fulfilled the requirements of the tender documents.

9. Project: Georgia: Georgia Urban Transport Enhancement Programme

Country of Originator: Georgia
Contract Amount: €18.6 million
Timeline: < 2 months

Nature of Complaint:

The procurement complaint related to a tender for the procurement of 175 diesel buses divided into two lots for the renewal of bus fleets of six secondary cities in Georgia. The complaint concerned both lots. The complainant alleged that the technical evaluation of their tender had been done unjustifiably and as such was not compatible with the requirements of the tender documents.

Outcome of the Complaint Review Process:

It was confirmed that the client's refusal to comply with the Complainant's request to submit EC type approval certificates for the vehicles proposed after contract award and prior to goods dispatch was the correct practice. Furthermore, the Complainant's tender was determined by the client to be materially non-compliant in a number of other aspects too, which was verified by the Bank. Consequently, the Bank determined that the client had been correct in declaring the complainant's tender for Lots 1 and 2 to be materially nonresponsive to the requirements of the tender documents. Based on this, the Bank decided not to uphold the complaint.

10. Project: Georgia: Georgia Urban Transport Enhancement Programme

Country of Originator: Georgia
Contract Amount: €18.6 million
Timeline: < 1 month

Nature of Complaint:

The procurement complaint related to a tender for the procurement of 175 diesel buses divided into two lots for the renewal of bus fleets of six secondary cities in Georgia. The complaint concerned both lots. The complainant claimed that the winning tenderer presented false information when attempting to prove compliance with the technical requirements of the tender documents. The complainant argued that the bus models proposed by the winning tenderer for Lots 1 and 2 were neither equipped with EURO 5 engines nor were they in a serial production line as required by the tender documents. Accordingly, the complainant alleged that the winning tenderer did not meet the experience requirement in manufacturing and delivery of similar bus models in previous supply contracts. The complainant moreover alleged that the winning tenderer did not submit the correct data of a SORT 1 test, which measures the fuel consumption of vehicles and had been requested to be issued for a bus model with a EURO 5 engine.

Outcome of the Complaint Review Process:

The Bank determined that the winning tenderer had proven their capacity to manufacture compliant bus models in a serial production line and to deliver such to different transport operators. It was further confirmed that the winning tenderer had provided sufficient evidence demonstrating that the technical specifications of the proposed bus models were compatible with the tender requirements. Consequently, the Bank decided that the complaint should not be upheld.

11. Project: Croatia: HZ Infrastructure Modernisation

Country of Originator: Russian Federation
Contract Amount: €15 million
Timeline: < 2 months

Nature of Complaint:

The complaint related to a contract for the supply of a new Track Recording Vehicle. The complainant alleged that during the tender evaluation process the Bank's client had violated the PPR which resulted in the tenderer's tender being determined as substantially non-responsive and therefore rejected.

Outcome of the Complaint Review Process:

The Bank determined that the procurement process undertaken by the Bank's client was in full compliance with the PPR and the agreed procedures and therefore that the contract was correctly awarded. Consequently, the Bank decided not to uphold the complaint.

12. Project: Ukraine: Project Voyager

Country of Originator: Austria
Contract Amount: €36.1 million
Timeline: < 1 month

Nature of Complaint:

The complaint concerned the supply of "Railway track rehabilitation components - Lot 1 (of 5) - Supply of wide gauge rails R65 - 45 566 tonnes". The complainant was dissatisfied with the client's handling of the evaluation process.

Outcome of the Complaint Review Process:

The Bank determined that the procurement process undertaken by the Bank's client was not in compliance with the PPR and the agreed procedures and therefore that the evaluation process was incorrectly executed. Consequently, the Bank decided to uphold the complaint. However, the Bank determined that the decision to award the contract to the winning tenderer and not the complainant was correct, as the former's evaluated price was lower.

13. Project: Bosnia and Herzegovina: Visoko Water Supply

Country of Originator: Bosnia and Herzegovina
Contract Amount: €1.6 million
Timeline: < 1 month

Nature of Complaint:

The procurement complaint related to a tender for the third phase of the Visoko Water Supply Project for the construction of a new reservoir, a pumping station as well as respective primary and secondary pipeline networks in the area of Dubrave, Bosnia and Herzegovina. The complainant claimed that the Winning Tenderer did not meet the required specific experience for a single entity as specified in the Qualification Criteria. The complainant accordingly argued that the previously completed works projects reported by the winning tenderer in their tender as similar in scope, complexity, and technology to the ones requested for this contract was not supported by appropriate taking-over certificates and/or similar documentation as required in the tender documents.

Outcome of the Complaint Review Process:

The Bank determined that the procurement process undertaken by the Bank's client was in full compliance with the PPR and the agreed procedures and therefore that the contract was awarded correctly. Consequently, the Bank decided not to uphold the complaint.

14. Project: Georgia: GrCF2 W1 - Tbilisi Metro Project

Country of Originator: Georgia
 Contract Amount: €70.8 million
 Timeline: < 6 months

Nature of Complaint:

The complaint related to a two stage open tender for the procurement of rolling stock for Tbilisi metro, consisting of 10 train sets. The complaint centred on the first stage of the tender process. After the circulation of the updated minutes of the first stage tender, the complainant noticed that the Client accepted receipt of the first stage proposal submitted by another participant in the procurement process despite the omission of their name from the original record of the opening minutes. The complainant claimed that the other participant did not submit their first stage proposal by the closing deadline as stated in the updated minutes, and that the amendment of the opening minutes after the tender deadline did not comply with the PPR. For these reasons, the complainant argued that the first stage proposal submitted by the other participant should not be accepted and considered for further examination.

Outcome of the Complaint Review Process:

The findings of the Bank's review of the complaint concluded that there was no violation of the PPR related to the submission of the other participant's tender, as all documents had, in fact, been uploaded by them in the Bank's e-tendering portal (ECEPP) before the first stage deadline. Consequently, the Bank decided not to uphold the complaint.

3.2 Prohibited practices

The Agreement Establishing the European Bank for Reconstruction and Development expressly provides that the Bank must take all necessary measures to ensure that the proceeds of its financing are used solely for the purposes for which such financing was granted. To this end, OCCO investigates and, if appropriate, recommends sanctions for corrupt, fraudulent, coercive, collusive and obstructive practices, theft, and misuse of Bank resources or Bank assets (Prohibited Practices) pursuant to the Bank's Enforcement Policy and Procedures (EPPs).

In 2010, the Agreement for Mutual Enforcement of Debarment Decisions (AMEDD) was signed by the African Development Bank Group, the Asian Development Bank, the Inter-American Development Bank Group, the World Bank Group and the Bank pursuant to which it was agreed that these Mutual Enforcement Institutions would recognise each other's debarment decisions by cross-debarment of the same entities and individuals if specific conditions are met. Entities (and their affiliates) or individuals are ineligible to become the Bank's counterparty in any new Bank project if - in accordance with the EPPs - it is determined that (a) they have engaged in any Prohibited Practice in the context of a Bank project or Bank assets, (b) they are subject to a Third Party Finding, or (c) they are subject to a debarment decision by a Mutual Enforcement Institution.

In 2020, two enforcement proceedings resulted in the debarment of two entities and two individuals for a period of 3 years and one enforcement proceedings resulted in the debarment of an entity for a period of 1 year.

In 2020, in accordance with the AMEDD, the Bank cross-debarred 196 entities and 22 individuals and requested the cross-debarment of two entities and two individuals, who have been subsequently cross-debarred.

Entities and individuals (cross-) debarred by the Bank are ineligible to be awarded Bank-funded contracts during the (cross-) debarment period. On its website the Bank publishes all entities and individuals it (cross-) debarred over the years (<http://www.ebrd.com/ineligible-entities.html>).

PPAD and OCCO work closely together in relation to public sector procurements. The Procurement Function refers potential Prohibited Practices matters to OCCO, provides information on Bank-financed procurement projects to OCCO if required for its investigation, and shares its knowledge and experience about procurements with OCCO. In addition, following the conclusion of its investigations, OCCO shares any relevant lessons learned with PPAD to further strengthen the Bank's procurement processes.

3.3 Independent procurement reviews

Independent Procurement Reviews (IPRs) are carried out with the view to strengthen the ability of the Bank to fulfil its fiduciary obligation with regard to the oversight of procurement and contract implementation, to complement the prior and post review procedures applied, and to inform the Bank's management of the quality of the Bank's fiduciary work on procurement. The projects or issues for IPRs are selected based on: the relevance of the project or the issue reviewed to the Bank's likely future operations and lessons-learned potential.

With a view to potentially use more actively national procurement systems for the Bank's financed projects, a consultant was engaged to undertake a review of procurement activities in one of the countries of operation (Romania). The consultant was requested to identify patterns and performance differences in the procurement activities in the country (the data sample included 156 EBRD funded contracts ranging from €4,000 to €127 million), when the following three regularity frameworks were applied: (i) national funding with national procurement rules; (ii) EBRD funding with national procurement rules (mainly under the projects co-financed with EU and EIB); and (iii) EBRD funding with EBRD rules. The review focused on in depth analysis of competition, collusion and corruption risks. The key findings were:

- in respect of competition - a significantly greater intensity and openness of competition especially for large value contracts in EBRD funded contracts compared to national funding. Showing better relative performance of relative price and average number of tenderers indicators.
- in respect of corruption risk - a lower risks were found for the EBRD samples compared to the national samples. On average, nationally funded contracts show significantly higher corruption risk scores than EBRD subsamples.
- by contrast to the corruption and competition areas, differences between nationally and EBRD funded contracts are less pronounced in respect of collusion.
- the processes where EBRD rules are used were more likely to have open and fair competition in particular for large value contracts, and were found to be less susceptible to corruption and collusion.

Listing of Contracts by Country of Operations (Value in €) (2020)
